FAQ

comparison chart

Six Month Smiles®

Clear Aligners

6 Month average treatment time.

12+ Month average treatment time.

Generally less expensive than aligners*.
[see our cost calculator](#)

Generally more expensive*.

Broad range of tooth movement can be achieved.

More extensive movements are difficult to achieve.
(rotating teeth, moving teeth up and downs)

Working 24/7.

Only work when you wear them.

No need to worry about losing your aligners.

More likely to lose aligners, which cost more to be replaced.

**Cost can vary depending on specific treatment goals.*

SIX MONTH SMILES® VS. CLEAR ALIGNERS (Invisalign®)

Six Month Smiles® and Clear Aligners are both alternative options you have instead of wearing traditional metal braces for 2 years. However, **Six Month Smiles can sometimes be more effective and generally less expensive.**

FAQ

FAQ

Straight teeth in 6 months? How?

A. Our clear braces are safe, comfortable, and provide quick results. Using proven techniques and materials, the braces have been specifically designed for adults with crooked, spaced, or misaligned teeth.

How much does it cost?

A. Visit SixMonthSmiles.com/Cost to estimate your monthly payment. While the cost is generally less expensive than traditional braces and aligners, the cost varies depending on specific treatment goals.

Will dental insurance cover the cost?

A. Your dental insurance may cover limited orthodontic treatment, such as Six Month Smiles. Details should be reviewed with your dentist's office.

Are retainers required?

A. Yes, as with all orthodontic treatment, a retainer is necessary to maintain the new, straight position of your teeth. There are a variety of retainer options you can choose from depending on your personal preference and situation.

Is there a catch?

A. There's no catch! If you are an adult patient with crooked, spaced, or misaligned teeth, then this could be a fantastic option for you! ***Ask your dentist today if you are a candidate.***

Does everyone really finish in 6 months?

A. 6 Months is the average treatment time. Most patients finish around 6 Months, but treatment times may range from 4-9 months.

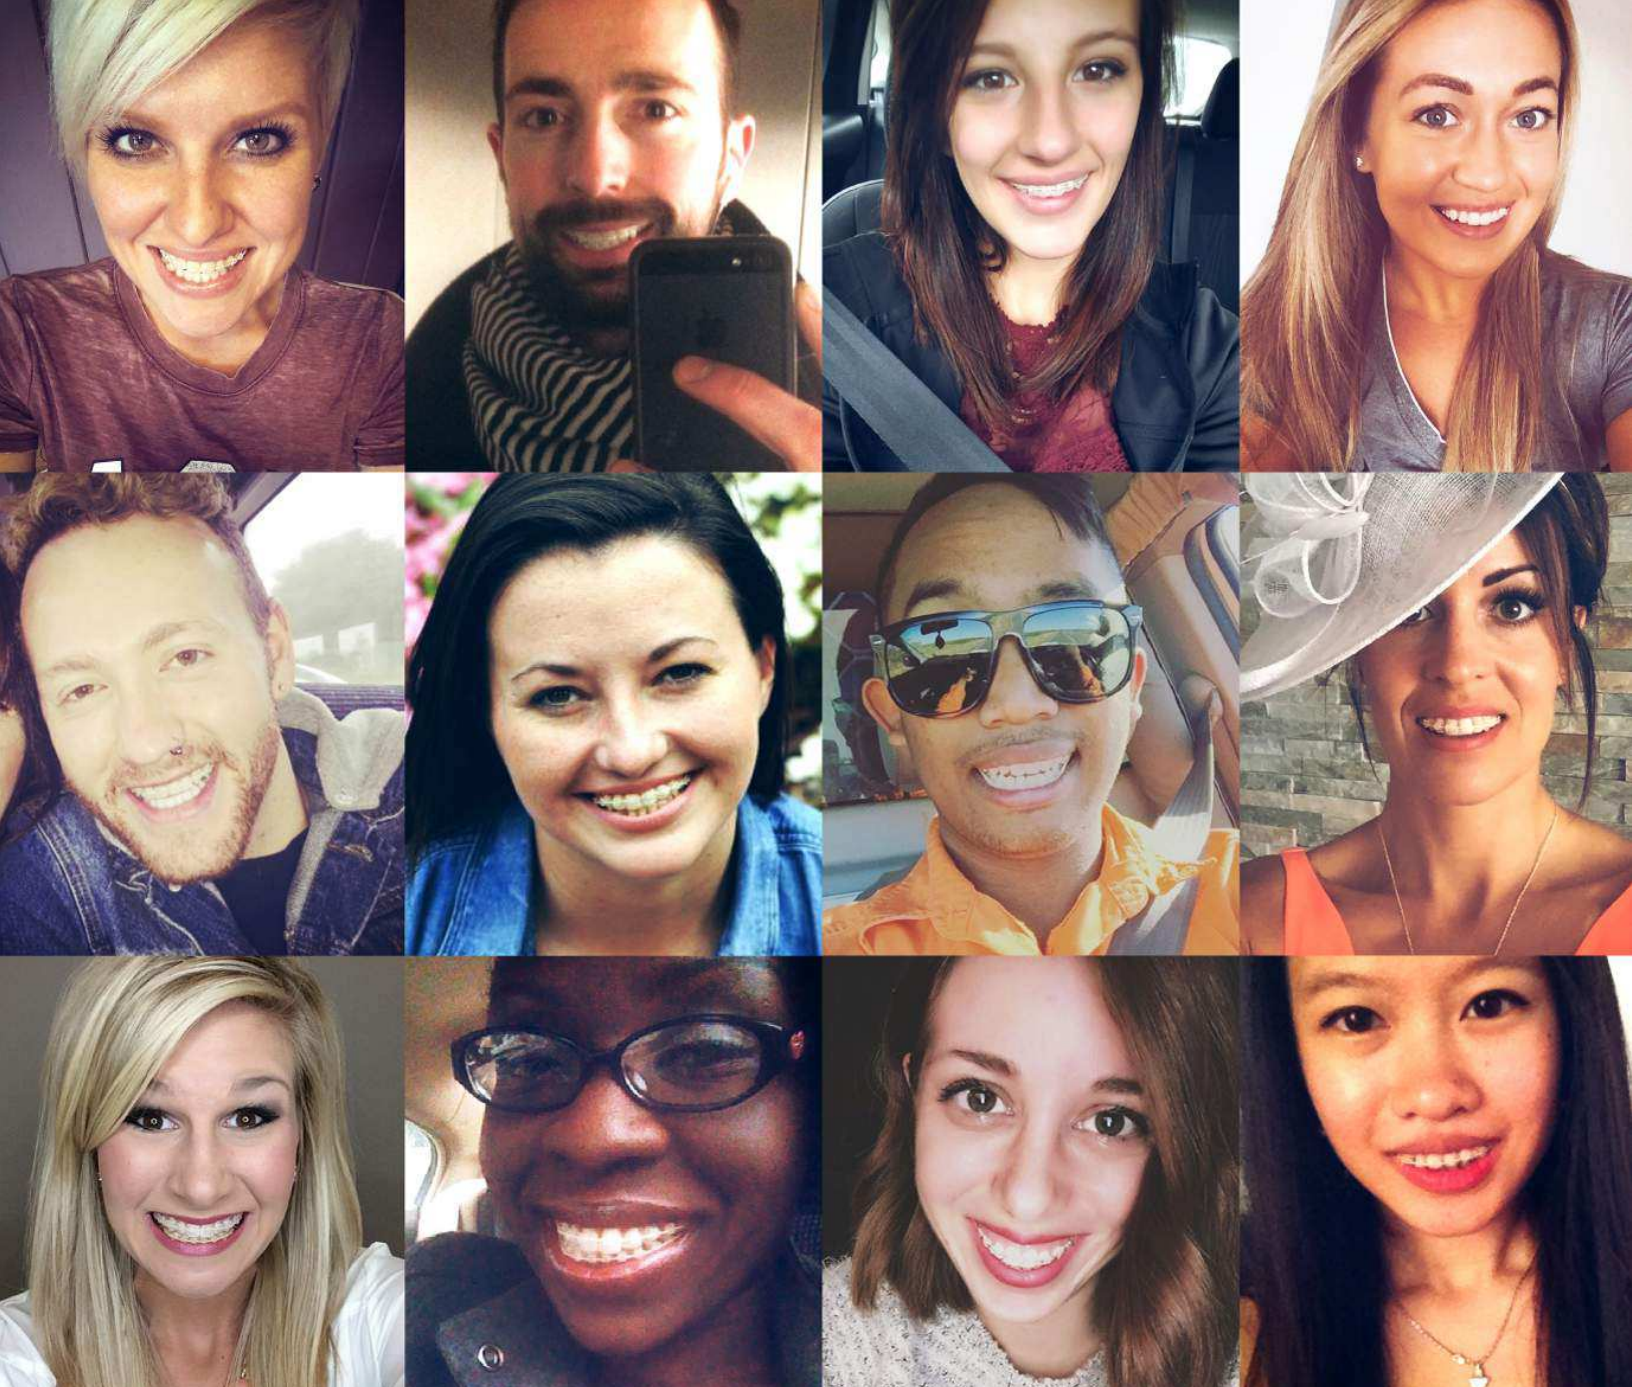

WHAT NOW?

Ask your dentist if Six Month Smiles is right for you.
